

Interview Skills – Evidence and Reflection

Overview

This section demonstrates my understanding of **Interview Skills** from the CPUT Work Readiness module (PRP370S). It showcases my ability to prepare effectively, use the CAR method, and respond professionally to common interview questions.

■ Evidence 1 – Interview Skills Quiz Results

Module: Interview Skills
Status: Complete
Score: **100%**
Duration: 00:34:26

Question	Topic	Result
What is the primary purpose of a job interview?	Understanding purpose	■ Correct
What is the CAR method used for in interviews?	Answer structuring	■ Correct
Purpose of researching a company before an interview?	Preparation	■ Correct
Best way to answer 'Tell me about yourself'?	Personal presentation	■ Correct
Approach to 'greatest weakness' question?	Self-awareness & growth	■ Correct

I achieved a full score, demonstrating excellent understanding of interview strategies, answer structuring using the CAR method, and professional preparation techniques.

■ Reflection: Interview Skills (STAR Technique)

S – Situation: During the Work Readiness module, I participated in interview preparation activities and quizzes designed to test my understanding of effective interviewing.

T – Task: My goal was to master structured interview responses using the CAR (Context, Action, Result) technique and to prepare strong answers for common interview questions.

A – Action: I researched best practices for interviews, studied the company background, and practiced answering behavioral questions aloud using STAR and CAR methods.

R – Result: I achieved **100%** on the Interview Skills quiz, gained confidence in structuring responses clearly, and can now communicate my experience and strengths effectively in professional interviews.

■ Key Takeaways

- Always research the company before an interview.
- Use CAR/STAR techniques for structured and confident answers.
- Maintain professionalism and clarity throughout the conversation.
- Practice improves delivery and self-awareness.
